NEW TARIFF LAW PASSED IN HURRY BY U. S. SENATE

Measure Goes To The House, Due Out In Six Weeks

RIDERS ARE ADDED

Increase Added At Eleventh Hour Arouse Democrats

New York, August 17.—The Senate today passed the final stages of the Fordney-McCumber Tariff Bill at record speed. Hundreds of amendments were disposed of in 10 hours in blocks, the Senators often blindly voting for substantial increases in duties without discussion.

A storm was aroused among Democrats of the Finance Committee suddenly introducing 100 new amendments, many of them relating to duties which it was tacitly understood would not be changed, including a substantial increase in the duties on cotton yarns.

The whole 100 were passed without discussion amid indignant protests from the Opposition.

Washington, Aug. 17.—The Administration hopes to see the Tariff Bill passed within six weeks.

President Harding will make a statement to Congress on the labor situation today. He is expected to recommend legislation legalising the present fuel control committees.

(China Press Service)

Washington, August 16.—It is understood that Cuba has made official representations of its disapproval of the schedules of sugar imports under the Administration's tariff bill.

Washington, August 16.—The Senate has approved an amendment to the Tariff bill providing for free zones to be established in American ports where imports of raw materials may be manufactured for export free of duty.

NANKING TAKING AMERICAN MAIL OUT TOMORROW

China Mail Steamer Due In San Francisco September 11

The registered mail to be carried to America by the China Mail steamer Nanking will be closed at the United States Post Office at 6 p.m. today. Ordinary matter may be posted up to 10 o'clock tomorrow morning. The Nanking is due in San Francisco on September 11.

The Nanking sailed from Hongkong Thursday afternoon and is expected to dock at the China Merchants' lower wharf early tomorrow morning. She will sail at noon, going via Yokohama and Honolulu.

Swedish Scientist To Explore Tibet

(Reuter's Service)

London, August 18.—A message from Stockholm states that in next year's expedition to Tibet Mr. Sven Hedin will enter Tibet from the North East. He proposes to trace the sources of the Chinese river system and then to explore the central ranges of the Tibet mountains, and the connection between the Karakoram range and the Dangla mountains. His investigations will not only be geographical and topographical but also meteorological, zoological and botanical.

Mr. Hedin will first visit the United States to arrange the financing of the expedition.

ENVER PASHA DEAD?

(Reuter's Service)

London, August 18.—Advices from Berlin state that it is reported that Enver Pasha, who had just proclaimed himself Emir of Turkestan, was killed while leading his troops against the Bolshevists.

DOG DAYS STUFF

By Westa

HONORABLE umpiring more better, thank you!

Honorable captain Japanese baseballers rush over to Hon. base ump after game finish and explode: "Thank you!"

In the third inning, after Dinny had called one of the Meegees out at first the Japanese coacher, on the next play at that bag, when the runner was obviously safe, stuck his thumbs up just like Dinny does in that killing way of his to indicate "out," whereupon Dinny walked over to him and delivered the following oration: "Say, you, cheese it!"

Honorable Japanese second base baseballer very expertful.

Which also goes, double, for that guy Droski, the Fort Mills second sacker. In four appearances here this bird has let just one ball get away from him, and that was a throw from the catcher that went ten feet over his head while the soldier team was engaged in warming up practice. Close examination of Droski's paws probably would reveal an arrangement of suction pads each thickly surrounded by an especially sticky glue. A ball hit into his territory has about as much chance of getting away from those mucilaginous meathooks of his as a ricsha magnate has of passing out from enlargement of the heart. How Jawn McGraw or Connie Mack ever let that gink get away from the big leagues is somewhat of a mystery.

Watanabe, the Meegee pitcher, has about as fine a throwing motion as one could wish to watch. His arm movement is almost exactly like that of Walter Johnson, the great pitcher of the Washington Americans, although, of course, he has no such speed as the American. Like most Japanese athletes, Watanabe shows the lack of proper coaching, which is particularly evident in his failure to conceal his curve. In yesterday's game he was handicapped by the inability of his catcher to hold his shoots properly.

Speaking of throwing motions, Lieutenant Mumford, the Fort Mills star, uses a peculiar arm twist which if attempted by any other man would probably result in a broken elbow, or even a broken back. The lieutenant's throwing peculiarity adds much to his effectiveness, being so totally unlike anything the ordinary batsman is accustomed to. Mumford has a world of speed, good curves, and a fine pitching head, a combination that makes him an exceedingly capable hurler. And in Borowski he has a battery mate who gives him perfect support.

Honorable Japanese fans and fansans turned out in swarms to see homeside baseballers. Baseball park all same Tokio. Plenty banzais in seventh when the Meegees tied the score, and Hon. straw hat he go smash.

What a fine thing it would be for all of us, especially us fat guys, if we could serve a term in the army. Yesterday, when the soldier athletes left the club house after their visit to the showers, in which, by the way, they splash around in the exuberance of their youth like a flock of husky young walruses, every manjack in the squad looked the picture of abolutely perfect health and fitness; and as for superfluous adiposity there isn't enough of it in the whole of Major Dent's crew to bait a fish hook. If all of us were as fit as that gang the Shanghai docs would have to take in their shingles and go to work for a living.

Lieutenant Mumford beats it over to back up the first baseman whenever there is a possibility of an overthrow. Atta boy, Leut! 'At's playin' th' old game!

J. P. de Berry, who rapidly is Singerising China for a well known sewing machine company, had a terrible mental struggle yesterday. It seems that just before the game started a couple of fine new golf clubs were delivered at his office, fresh from the States, and J. P. couldn't decide whether to beat it to Kiangwan to try out the new sticks, or go to the ball game. He finally

(Continued on Page 2)

U. S. Woman Commands Turkish Barracks

Mrs. Amy Burt

THE great army barracks at Koulei, a suburb of Constantinople, which was formerly used as the Turkish West Point, is now under the command of an American woman, Mrs. Amy Burt, of Berkeley, Cal. But instead of training Turkish officers, Mrs. Burt's duty is the more useful one of superintending a great orphanage which has been organised in these extensive buildings.

EMPRESS BOAT CALLS AID FOR STRICKEN SHIP

Relayed S.O.S. Message Causes Fear For Australia

The new C.P.O.S. liner, the Empress of Australia, on its first round trip to the Far East was largely instrumental in the relief of a sinking Japanese freighter, the Ryokai Maru of the Mitsui Bussan Kaisha which carried a crew of 46 people on Thursday. The Empress boat, wallowing in a typhoon while nearing Manila picked up the S. O. S. of the Japanese vessel and relayed it so that several other boats nearer by 300 or more miles to the stricken vessel picked up the signal. The American destroyer Whipple and a coastguard cutter and a Japanese steamer owned by the Osaka Shosen Kaisha are rushing to the aid of the M.B.K. steamer.

When the S.O.S. was first reported locally, it was feared that the Empress of Australia itself was in distress. The steamer left here Thursday night for Manila and sailed through a severe typhoon. Her call for help, relayed from the Ryokai Maru was interrupted by atmospheric conditions. It was not until hours later that the real facts were known.

The Ryokai Maru, in its S.O.S. call, gave its position as Latitude 11.50 North and Longitude 121.15 East, a position in Philippine waters near the Cuyo Islands, North of the Sulu Sea, between the islands of Panay, Mindoro and Palawan.

STRUCK ON CORAL REEF

Manila, Aug. 28.—The Ryokai Maru, Mitsui Bussan Kaisha freighter, with cargo of sugar bound to Japan from Java, is in a sinking condition having struck a coral reef 20 miles south of the Minoro coast, according to wireless messages received at Cavite Naval Station last night.

The destroyer Whipple and a coastguard cutter are rushing aid to the Ryokai expecting to arrive on the scene at noon today.

The Ryokai Maru carries a crew of 46 and grave fears are held as to their safety owing to the very rough seas pounding the vessel.

China Invited To Navigation Parley

(Reuter's Pacific Service)

Peking, August 15.—It is understood that the Chinese Government has been invited by the British Government to participate in the international navigation conference to be held at London in the coming Autumn.

ORDERS READY FOR CALLING OUT U.S. ARMY IN RAIL STRIKE

Harding To Recruit Half Million Men

CONFERENCE ON

Government To Move Swiftly If Settlement Fails

(Reuter's Service)

London, August 18.—According to advices from New York despatches from Washington state that President Harding intends to recruit the army to the strength of 500,000 in the event of the failure of the railway strikers and executives to reach an agreement. It is understood that orders for mobilisation of the reserves are ready at the War Department.

New York, Aug. 16.—It is reported that the railway executives have accepted an invitation from the four railway brotherhoods, who are acting as mediators, to meet in New York on Aug. 17 to endeavor to reach a settlement.

(China Press Service)

Washington, August 17.—The conference of railway executives and the railway brotherhood has adjourned till tomorrow without reaching a definite conclusion.

Washington, August 16.—It has been officially announced at the White House that President Harding will place the railroad strike situation before Congress and the country within 48 hours unless the strike is settled.

The decision followed a meeting of the Cabinet when an Administration spokesman declared the President said the strike must be settled at once.

Washington, August 16.—The railroad unions have issued a statement rejecting Prresident Harding's plan to end the strike as 'hopeless' and declaring that the only hope of settlement is by direct negotiations between the workers and the railroads.

(Reuter's Service)

Washington, Aug. 17.—President Harding has decided for the present to defer his address to Congress, feeling that every effort towards a settlement of the railmen's strike should be exhausted before he intervenes, presumably thinking of the conference now in session in New York between the railway employers and the trade unions.

Meanwhile President Harding is still working on the text of the address.

CHINESE CHAMBER TO MEET TODAY

A resolution to ask the Peking Government to deposit a portion of the salt surplus with reliable Chinese banks instead of keeping the money entirely in foreign banks will be introduced at the 17th general meeting of the directors of the Chinese General Chamber of Commerce to be held at the chamber today. The resolution will be moved by Mr. S. U. Zau.

Other matters to be discussed on the agenda include the change of visiting hours at the Commercial Museum and the admission of new members to the chamber.

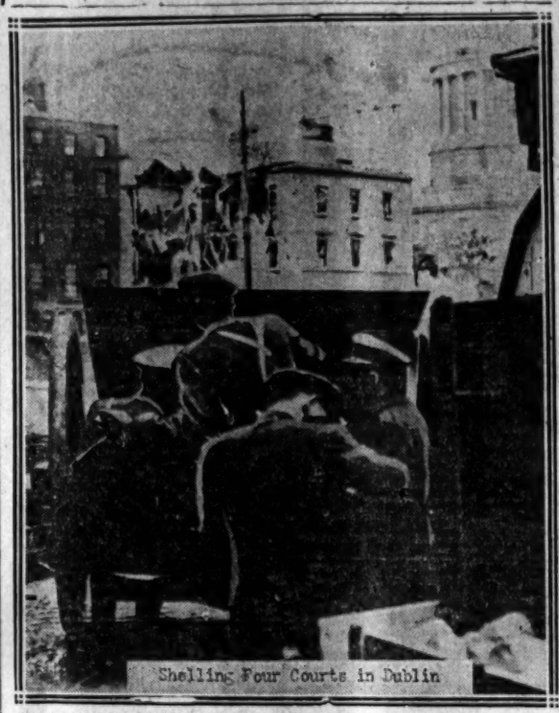
Motorless Aero In Air 2 min. 51 sec.

(French Wireless through Reuter)

Paris, August 17.—An aviator named Bossoutrot yesterday beat the record for a motorless aeroplane flight ("le record du vol sans moteur") by remaining in the air 2 min. 51 secs.

London, August 18.—As compared with the best glider flight of nearly three minutes accomplished by a Frenchman on Wednesday at trials in France, it is reported from Berlin that a German glider has just flown over 18 miles.

First Pictures Of Dublin Battle



Shelling Four Courts in Dublin

HERE is the first picture to reach this country of the sanguinary fighting in Dublin between forces of the Free State Government and of the insurgent Republicans. The Free State artillerymen are seen sending eighteen-pound high explosive shells into the famous old Four Courts, which was destroyed by fire and mines when the Republicans evacuated it. The round tower of the Four Courts is plainly visible at the upper right-hand side of the picture, while at its left may be seen one of the buildings, wrecked by artillery fire, from which the Republicans previously had been driven.

WITNESS REVIEWS DEAL FOR COPPER AT BOYD HEARING

T. C. Yu Who Acted As Agent In Negotiations On Stand Through Day

Trial of Ralph S. Boyd who is charged with having obtained Tls. 30,000 by false pretenses from the Hunan Provincial Mint continued in the U. S. Court for China through the day yesterday when but a single witness of the ten or twelve that the prosecution intends to call occupied the stand through both morning and afternoon sessions of court.

This witness who will resume the stand this morning is Mr. T. C. Yu, assistant treasurer of the Wah Chang Trading Corporation.

Mr. Yu served as agent for General Chang Yi-pong, director of the mint, in the deal where it is alleged Boyd represented that he had 20,000 piculs of copper ingot for which he obtained the Tls. 30,000 but never made delivery. Mr. Yu testified that he had first met Boyd when he went to Boyd's offices in the Glen Line building on February 14 at the request of General Chang to act as interpreter in the negotiations and that he had asked Boyd whether he actually had the copper in stock. Boyd told him he had the copper in a godown in Yangtszepoo, he said.

SAW BOYD AGAIN

On February 27 he saw Boyd again, he testified, when Boyd told him that he had shipped the copper to Hankow but that he was unable to get it through the customs on the permit he had, and unless he got it through in three days he would have to ship it back to Shanghai because of the financial arrangements he had made with banks here.

Mr. Yu said he advised Boyd to wire General Chang at both Hankow and Changsha immediately, and he himself wired General Chang suggesting that he see Mr. Chen of the Hankow Customs so as to expedite the copper shipment as it was badly needed at the mint. When United States District Attorney Leonard G. Husar attempted to introduce the telegram at this point in the proceedings Mr. R. S. Haskell, Boyd's counsel, objected, and Mr. Husar asserted that it was introduced because it was corroborative evidence.

"This evidence is corroborative of the previous evidence", Mr. Husar said, "and shows that Boyd didn't have any copper and was making specious excuses to delay matters. It shows that he had guilty intent. It shows that there was good faith on one side and bad faith on the other, and that it was all a part of the scheme."

MUCH CORRESPONDENCE

It was identical with the introduction of numerous other

TEXAS COMPANY GETS CONTRACT FOR NAVY'S OIL

Will Supply Lubricants To U. S. Ships In Oriental Ports

The Texas Oil Company, China managers of which concern have been in conference here for several days past, has secured the contract to supply all lubricants for the United States navy in Oriental ports for the period from July 1 of this year to June 30, 1923.

This is the first time in a number of years that the Navy has drawn its lubricant supply from Oriental ports and the contract constitutes a feather for the Texas Company cap.

The Texas men attending the conference held here during which the securing of the contract was announced, include Mr. William Magger, of Hongkong; Mr. H. S. Babcock, of Tientsin; Mr. Thomas S. Moseley, of Tsingtau; Mr. E. F. Farnum, of Hankow; Mr. E. W. Eubank, of Chinkiang, and Mr. C. Roesholm, of Mukden.

Filature Strikers Rap Guild Chief And Police Head

Alleging that Shen Lien-fang, chairman of the Silk and Cocoon Guild, has some personal grievances against Mo Chi-yin, vice-president of the Filature Girls' Union who is now held with two others by the Chapei police as a result of the recent strike, the Filature Girls' Union yesterday addressed a petition to the Civil Governor of Kiangsu, asking for the release of the prisoners.

The petition further alleged that Yen Pi-chen, chief of the Police Station at Chapei, was bribed by Shen to arrest Mo Chi-yin and to subject her to many forms of torture and abuse; and prayed that a thorough investigation be made about the recent strike, which, the petition stated, was caused by the death of a millhand of the Dah Zung Filature, who was denied the privilege to absent herself from her work when she had cholera.

BAN ON TRAVEL

(Reuter's Pacific Service)

Peking, August 18.—On the 16th the Waichiaopu notified the Diplomatic Corps that foreigners should not be allowed to enter Moyuan, Yinshan or Touyuan until further orders, owing to local disturbances.

LISBON STRIKE ENDS

(Reuter's Service)

Paris, August 17.—The general strike at Lisbon has terminated.

PARLIAMENT MEMBERS GOING TO PEKING ON DOCTOR SUN'S ADVICE

Further Indications Are That Southern Leader Will Accept Urgent Invitation Extended By President And Others And Will Himself Proceed To The Capital Shortly

SEEKS NO PARTISAN ALLIANCES

Delegates Representing Tsao Kun, Gen. Wu Pei-fu, Chang Tso-lin And President Li Yuan-hung Are Being Entertained At Series Of Dinners At Rue Moliere Home Of Doctor Sun

Developments of yesterday coupled with expressions of followers of Dr. Sun Yat-sen carry the indication that Doctor Sun will accept the invitation extended to him by President Li Yuan-hung and other invitations and shortly will proceed to Peking.

It was disclosed yesterday that unless unforeseen events prevent Mr. Eugene Chen and Quo Tai-chi are to go to Peking in the immediate future to confer there as direct representatives of Doctor Sun with principals whose agents have been remaining in Shanghai in conference with Doctor Sun. It is to be remembered that it was these two representatives of Doctor Sun who came on to Shanghai from Canton and met here agents of northern factions and interests before Doctor Sun himself came north.

SOLONS GO TO PEKING

An extremely significant development that came to light yesterday is that a considerable group of members of parliament who have been remaining here since they came to Shanghai from Canton, steadfastly refusing to go on to Peking, now intend to proceed immediately to the Capital. And it was disclosed that Doctor Sun himself offered the suggestion that the legislators proceed to Peking. It was stated that the members of parliament who were marking time here numbered about one hundred and the arrival of such a number at Peking cannot fail to have an important effect upon the whole situation.

Precisely what has been taking place at the conference Doctor Sun has been holding in informal fashion at his own home on Rue Moliere and in other private residences continues to remain secret. The southern leader informed several close to him yesterday, however, that he has been telling the representatives of all factions that he is seeking no partisan alliance and that he will utterly refuse to go into any combination with one or more groups or parties against any others.

HAS SINGLE AIM

In this connection Doctor Sun said that his present single aim is to effect a general national readjustment and understanding through which peace for all China and real reunification may be achieved. It is said on good authority that one undertaking to further his aims that Doctor Sun has shouldered in the present negotiations is a move to bring General Chang Tso-lin and General Wu Pei-fu together on a friendly basis and it was said also that Doctor Sun holds some hope of being able to reconcile these two opposing interests.

While the conferences are in progress Doctor Sun is entertaining representatives of the various groups at a series of dinners at his home. At the first of these on Thursday evening the delegates representing General Tsao Kun headed by General Sun Yueh, who played a prominent part in the recent warfare, and delegates representing General Wu Pei-fu, headed by Wang Fa-ching, were guests of Doctor Sun. At a dinner given at the Rue Moliere home last night the Kuomingtang chieftain was host to the delegation representing Chang Tso-lin which is headed by General Nim. Delegates who represent President Li Yuan-hung and who are headed by the President's kinsman Li Shu are to be guests of Doctor Sun this evening.

Concerning developments taking shape here Kuomingtang leaders and particularly those in close touch with Doctor Sun continue to be wholly optimistic and declare that prospects that Doctor Sun's aspirations will be brought to realisation are growing brighter daily.

CERCLE MEMBERS VOTE TO REMOVE TO NEW LOCATION

Authorise New French Club At Verdun Gardens

Members of the Cercle Sportif Francais in extraordinary general meeting last evening voted to remove the club to the Verdun Gardens, which means the sale of the present establishment at Koukaza and the construction of new club buildings and appurtenances to cost in the neighborhood of Tls. 450,000.

Considerable discussion preceded the ballot, several speakers advocating the retention of the present club location and building, either with or without the improvements which the committee considered such a course should entail.

The meeting was attended by about 250 members and 244 votes were cast when the ballot was taken. Of these 187 were for moving to Verdun Gardens and 57 for remaining in the present home.

Fascisti Forming Own Army, Italian, Press Is Informed

(Reuter's Service)

Paris, August 17.—The National Council of Fascisti, at a recent meeting at Milan, decided to continue their efforts to secure a dissolution of the Chambers.

The Italian newspapers announce the constitution of a Fascisti army.

Three Firms Dropped From Curb Market

(China Press Service)

New York, Aug. 16.—The Curb Market Association has announced the suspension of three firms for failure to meet their obligations. The firms suspended are Hoey, Thoden and Company, Smith, Cockhart and Company, and Kaderly and Ginman.

GENTRY AROUSED

(Reuter's Pacific Service)

Peking, August 18.—Failing to receive satisfaction yesterday the Kiangsi gentry are arranging another demonstration. Their demand for the removal of General Tsai Cheng-hsun is embarrassing the military authorities as General Tsai claims to have driven out General Li Lieh-chum and says that his forces are now engaged in suppressing roving bands of exsoldiers.

KANSU APPOINTMENT

(Reuter's Pacific Service)

Peking, August 18.—Mr. Sun Tan-lin, Vice-minister of the Interior, has recommended the appointment of acting Civil-Governor Sin Hsi-kuang as Civil-Governor of Kansu, but approval is not expected owing to Mohammedan opposition.

DOG DAYS STUFF

(Continued from Page 1)

ly compromised by taking the clubs to the game with him, and practicing with them afterward on the polo field. The new clubs are beauties, with cork handles, ivory faces n'everything. Now that J. P. has the new wallopers he will get no more bisques from me.

Those American brewers are a resourceful let. With their grog mills closed, they sell their left-over cork stocks to the athletic equipment manufacturers for golf club handles. Hey, Squires, can put cork handles on old clubs?

Special announcement: Monty Jones, cousin of the late lamented Casey, has sent in a true copy of the famous Champ Clark houn' dawg song. Coming up as soon as these Hon. baseballers get out of town. Order your China Press early. (Adv.).

Stuffy McGinness, the Fort Mills shortstopper, stole a little of Freddy Bills' stuff yesterday, grabbing one from Dalmon's bat in the fifth that was so hot it shriveled the grass. Later on, however, Stuffy messed one up a bit and failed to get his man at first. Taking him day in and day out, Stuffy can play ball on our team if he can argue Major Dent into giving him a release from the soldier outfit.

Increase In Russ Motor Transport

(Russian News Agency)

Moscow, July 21.—The amount of motor transport available in Russia has been considerably increased during the last year. Well over 10,000 motor vehicles are now in use in the Soviet Federation—7,000 more than were fit for work in Oct. 1918. The total number of motor vehicles in Russia is 23,000, but many of these are scarcely worth repairing. The number of cars and lorries fit for service was:

January 1, 1920	8,400
January 1, 1921	10,000
October 1, 1921	11,150

On October 1, 1921, the majority were being used by Government departments, such as:

Commissariat for Food	1,058
Commissariat for Health	890
Supreme Economic Council	1,010
Central Motor Transport Dept.	3,000

The Motor Transport Department serves many of the less important Government offices, and many of its cars are at the disposal of Trade Union headquarters in Moscow, or the Central Union of Co-operative Societies. Various Co-operative Societies possess about 400 vehicles between them; these are mainly lorries.

Trucks form fifty-four percent of the total number of vehicles that are fit for service. On the average, each lorry is carrying loads on 140 days in the year, loading, unloading, and waiting for loads during ninety-nine days, and being repaired and cleaned in workships, or waiting for repairs, during the remaining 126 days. It is stated that motor trucks in the United States working under similar conditions average 173 days per year under load. The road conditions in Russia are, of course, very much worse than in other parts of Europe, or in America, and the lack of spare parts makes repairs difficult.

BEVAN IN LONDON

(Reuter's Service)

London, August 17.—Gerard Bevan, who was recently extradited from Austria, has reached London from Vienna. He will be brought up at the Guildhall tomorrow on a charge in connection with his relations with the City Equitable Fire Insurance Company.

IRISH REBELS LOSE

(Reuter's Service)

London, August 17.—Free State troops are steadily pressing back the irregulars and have now freed Clifden, including the Marconi wireless station.

The Free Staters recaptured Dundalk last night, where the irregulars have fallen back to the neighboring mountains.

INDIES LOAN

(Reuter's Service)

Amsterdam, Aug. 17.—A bill has been introduced to amend the East Indies Loan Bill in order to facilitate the issue of the balance of 119,000,000 guilders abroad, presumably in the United States.

New K. Of C. Supreme Advocate

LUKE E. Hart, of St. Louis, has been elected to the highest legal office in the Knights of Columbus, that of Supreme Advocate, succeeding Joseph B. Pelletier, of Boston, who resigned recently. Mr. Hart is forty-one years of age and a graduate of the University of Missouri.

Former German Army Chiefs Taking Odd Jobs

Old-time Officers' Corps Blown By Winds Of Fate To Four Corners Of The Country

Berlin, July 6.—What has become of the former officers' corps of the German army? It is not an easy matter to answer this question, as this once efficient body of soldiers has been blown by the winds of fate to the four corners of Germany.

Germany was disarmed and dismayed by the terms of the Versailles Treaty, whereby thousands of men were tossed out of a supposedly life-long career into the maelstrom of changed social and economic conditions. A certain percentage of officers who had married into financial or commercial circles easily found positions; another fraction was absorbed by the German civil service, and a still smaller one into the newly organised Reichswehr and the so-called "Security Police." But by far the larger number were confronted by changed economic conditions with which they were unable to cope, and this was particularly hard on the older officers.

The German army on a peace basis was officered by 50,890 men, this number of "actives" being increased at the opening of the war by about 270,000 "reserves," which brought the total aggregate up to 325,776. This figure does not include the sanitary corps and sub-physicians. The losses sustained by the officers' corps is given in the official statistics as 55,000 dead and 96,213 wounded, thus leaving more than half the original number to find employment of some sort and be assimilated into the new social structure.

During the period of chaos immediately following the armistice, officers did not disdain accepting positions as waiters, porters and the like, but, thanks to the splendid work done and still being done by the "National Employment Bureau for Former Officers," the majority have found regular employment, even though some of them barely earn a living wage, and the household income must be eked out by the co-operation of remaining members of the family.

A large number of the former officers went in for university ..., the most favored branches being jurisprudence, medicine and technical courses. The money for this purpose they were obliged to earn on the side. In this connection, an interesting story is told of a former grade da corps officer, who with the last remnants of his capital bought a taxicab. At first he drove the taxi alternately with his former orderly, but now it belongs to the latter and with the income derived from the business the lieutenant is able to pursue his technical studies.

There is scarcely a large bank or industrial enterprise in which former officers are not employed. The automobile industry has absorbed a large number of officers, as have also insurance companies—indeed, officers are to be found in practically all industries, such as mines, machine and electrical plants, technical bureaus, quarries, export business and the omnipotent film industries. Other officers have taken a regular course in shoemaking in order to be qualified to take over the management of shoe shops.

The "Employment Bureau for Former Officers" has arranged a commercial course, and it is no uncommon sight to see gray-headed generals and young lieutenants sitting on the same school bench. Not every one has been able to weather the storm, and many tragic tales are told of the unhappy fate of officers formerly distinguished by their bravery and elan.

One of these was Lieutenant Berg, known throughout the world as the daring commander of the Appam and Moewe, which caused such tremendous damage to Allied shipping during the war. Berg found a position in a Hamburg industry and his wife and children remained at their home in a Schleswig-Holstein village, since turned over to Denmark. The high rate of the Danish exchange made it impossible for him to support his family, and the desperate man who had faced the enemy's cannon without fear, in desperation put a revolver to his own temple.

There is but little inclination among the former officers to enter the civil service, preferring commercial and industrial careers where promotion is more easily assured. Those officers to whom foreign countries held out a lure were chiefly disappointed in their adventure, and returned sadder and wiser men. The officers who lost their sight in the war were sent for the most part to the School for the Blind at the University of Marburg where they studied political economy, stenography and typewriting, and have found places in business offices. It is needless to say that the officers of the former general staff had no difficulty in finding places by reason of their thorough training and linguistic knowledge. No confirmation can be found of the statement frequently made in the international press to the effect that numbers of the German officers have taken service in foreign armies and navies, especially in Russia.

Through the agency of the "National Employment Bureau for Former Officers", twelve thousand officers have already been absorbed by Germany's economic life.

FOR REMOVING SUPERFLUOUS HAIR.

No woman who has any sense of beauty will deny that superfluous hair is one of the greatest drawbacks to good looks.

Realising this, woman of all times have put themselves to any expense, and have endured considerable pain and discomfort in order to rid themselves of this great disfigurement.

Nowadays electrolysis is a prevalent "cure" for this evil, but in reality this process involves a great deal of unnecessary expense, waste of time and pain.

The simplest quickest, and most effective treatment can easily be carried out by any sufferer, in the privacy of her home. This is the recipe:

Procure about 1 oz. powdered rheminol from your chemist; mix a sufficient quantity with a few drops of water into a stiff paste. Apply this carefuly and thoroughly to the hair you wish to remove, and allow the paste to dry. In A few minutes it can be gently scraped away. The skin is left absolutely free from hair, and should then be carefully washed in warm water, and if desired, lightly dusted with a little talcum powder. (Advt.)

Chinese Hotel To Give Dinner Dance

An innovation at the Yih Ping Shang hotel this evening will take the form of a dinner-dance, with cabaret attractions. The hotel has engaged a new five-piece orchestra which will play dance music while a number of Russian entertainers will give a program of specialties. The cabaret dinner-dance will be a regular Saturday night feature hereafter in the main hall of the popular Chinese hotel.

COAL SETTLEMENT

(Reuter's Service)

Philadelphia, August 17.—The conference of anthracite coalminers and operators has adjourned till tomorrow. Representatives of both parties made optimistic statements regarding the outcome of the discussions.

(Reuter's Service)

New York, Aug. 17.—The terms of the settlements of the soft coal strike provide for the continuance of the old wage scale till March 31, 1923, the calling of a conference in October to fix the scale thereafter and the appointment of a commission on which the Government will be represented to inquire into the question of the reorganisation of the industry on a sound economic lines.

TOWNSEND IN FRANCE

(Reuter's Service)

Paris, August 17.—General Townsend on his return from Asia Minor has arrived at Marseilles.

Just Between Ourselves

(No. 14 of a series)

"YES life insurance is a good thing, but I am not ready just now. I will take it later."

"LIFE and health are just as uncertain from now until the time you are ready to take out insurance as they will be later".

"You can make other investments at any time when it is convenient for you. You may not always be able to make an investment in life insurance. Anyway, why do you wait until the price of *this* investment, most needed by you, has gone up?"

Full information gladly sent on request.

Canton Shippers Refusing To Patronise Native Boats

(Reuter's Pacific Service)

Canton, August 10.—Lack of confidence in their own Government has led many long-suffering shippers to demand foreign bottoms for the transportation of their goods and some native launch-owners to display foreign flags. This action is much criticised by the younger citizens, who characterise it as treason to the country.

The recent "fratricidal" wars in the south have created a strong "clan" prejudice among the less educated in Kwangtung. The fearful loss of life and property near Swatow and vicinity in the typhoon of August 2 is not arousing the usual response to charity appeals. Instead of the famous nine charitable institutions of Canton, it is the Chaochow Guild which has taken the initiative in the fund "drive" for relief of the sufferers.

Many Canton shopkeepers whose business has been ruined by looting by Chen Chiung-ming troops say that the spoils thus gained by the culprits are sufficient to reconstruct Swatow and other Chaochow towns, claiming that most of General Chen's followers are natives of Waichow and Chaochow. The more enlightened Cantonese, however, are doing their best to raise a large relief fund, although the recent war and the present "clan" prejudice have made conditions very unfavorable for getting money here.

The more influential leaders of the community are now absent from Canton. The frequent arrest of political suspects and opponents on charges of sedition and the like has made it exceedingly dangerous for the wealthy to live peacefully here. As the demand for Government jobs is always greater than the supply, the reason for the maintenance of the large secret service to oust all political opponents can be understood, well-to-do Cantonese who can afford to do so now prefer to live away from Canton at least for the time bieng.

Witness Reviews Deal For Copper At Boyd Hearing

(Continued from Page 1)

letters and telegrams introduced by the prosecution, nearly all of which was objected to by the defense and led to many skirmishes between opposing counsel. Judge Lobingier in nearly each instance reserved his ruling. Fifteen letters, telegrams, or copies of correspondence between Yu and Chang and Yu and Boyd were introduced by the prosecution at the morning session alone.

General Chang replied by telegraph that there was no copper aboard any of the ships for him Mr. Yu said, and so he immediately began an investigation. First he said he went to Boyd's offices and asked him on what ship he had sent the copper.

"Boyd told me he had shipped in by the s.s. Swatow, his own ship," Mr. Yu said, "explaining that some of the 5,000 piculs of the shipment had been sent by lighter to Nanking because of lack of space. I then asked him about his financial arrangements with the banks and he told me the shipment had been financed partly by his compradore and partly by the Park Union Bank".

NO SHIPMENTS

Mr. Yu then explained that he caused a check to be made of all steamship companies and discovered that no copper had been shipped to Hankow by Boyd. He also called on the manager of the Park Union Bank, he said, and was told that Boyd had approached them with a financial deal but that his offer had been rejected.

"I then returned to Boyd's offices," Mr. Yu said, "and told him I had caught him in two lies because the copper had not been shipped and the Customs returns showed it, and also that he had no financial arrangement with the Park Union Bank. I demanded a return of the Tls.30,000 put up by General Chang and Boyd promised to return it."

At the beginning of the hearing yesterday opposing counsel had a skirmish over the Chinese interpreter. Mr. Walter Chen had been mutually agreed upon but Mr. Haskell objected to him on the grounds that he was not a Chinese scholar.

Mr. Husar contended that a man did not have to be a Chinese scholar to be an interpreter, and insisted upon Mr. Chen's being retained on the grounds that he was perfectly competent in both Chinese and English, and was absolutely disinterested.

"I know that it has been the custom here for attorneys to have their own interpreters act when they are examining or cross-examining witnesses," Mr. Husar said, "but I serve notice now that in this court I will always object to an attorney making use of his own interpreter. The Court should appoint an absolutely disinterested interpreter."

Judge Lobingier sustained the District Attorney's contention as to Mr. Chen's ability and he acted as interpreter. Mr. Yu resumed the witness stand at the resumption of the hearing at 3 o'clock in the afternoon.

TELLS OF PURSUIT

Closing portions of Mr. Yu's direct testimony were devoted to a description of many fruitless efforts to obtain from Mr. Boyd the return of the deposit of Tls. 30,000. Under a fire of objections and interrupted by clashes of counsel he told of an investigation he had conducted in General Chang's behalf through which he confirmed all his suspicions that Boyd was seeking to victimise General Chang.

The witness asserted that on every occasion he talked to Boyd he was given some new assurance or was told of some important commercial enterprise, but on these occasions he was able only to get promises of the repayment of the deposit money.

He described in considerable detail a pursuit of Boyd that led through portions of the Great Eastern hotel when, according to the witness, Boyd was seeking to elude him. He had accompanied Boyd to the hotel after the latter had said he was going there to see a man on an important business transaction through which the money he was seeking would be realised. Boyd told him he would have to wait down stairs, he testified, but he said he remained only long enough to take on elevator following take an elevator following one that had borne Boyd upward.

From hotel employes he learned Boyd had got off at the third floor and carrying his pursuit farther he found, he said, that Boyd had not called on any guest, but had gone into a lavatory. At this time he said Boyd employed every effort to induce him to leave. He said he told Boyd he would not leave but did not mean to hamper him and therefore would wait for him in the corridor. Then he said Boyd descended to the second floor whereupon he confronted him and charged him with attempting deceit. When Boyd again left him to take a ricsha he said he continued the pursuit.

When the cross-examination began late in the afternoon the testimony of the witness again was hampered by objections from the prosecution to nearly every question asked. Preliminary details and events of the opening negotiation between General Chang and Boyd were reviewed with difficulty which increased when questions concerning the contract for the copper and concerning its delivery were asked. The cross-examination is to be continued this morning.

MAIL TO EUROPE

A supplemental mail for Europe, to be carried by the Messageries Maritimes steamer Amboise, will close at the French Post Office at 8:15 a.m. today.

The Amboise is docked at the S. M. R. Whangpoo Wharf and will sail for Marseilles at 9 o'clock this morning. Passengers may embark at the wharf after 7 a.m.

Mail from Europe is due next Monday on the M. M. liner Amazone. The vessel comes from Marseilles.

TO FETE HINDENBURG

(Reuter's Service)

Paris, August 17.—Field Marshal Hindenburg will be present at Munich on August 28 on the occasion of a fete in his honor organised by various patriotic societies.

DEL MONTE SHOW BRINGS $600 FOR SWATOW AID FUND

By reason of the special benefit performance given at the Del Monte Cafe Thursday night in aid of the Swatow typhoon sufferers, the fund to be sent from here to that stricken community has been swelled by $602, it was announced yesterday.

The benefit was largely attended and the patrons expressed themselves as thoroughly pleased by the excellent program which Manager Israel's entertainers provided for the occasion. The numbers by the sensational dancing Lantzoffs and the speciality numbers by the Summer Follies company, headed by the versatile Miss Irene Gray, were received enthusiastically and Hamilton and Mills pleased also with their songs.

The sum realised included the gross of the admission fees and a percentage of the cafe business for the evening and both the cafe management and Mr. Brady, who arranged the program, are to be congratulated on the result.

AID FOR SCHOOLS

(Chung Mei Service)

Peking, August 15.—Although today was the date fixed for the opening to the public of the San Hai Palace, due to the arrangements not all being effected, it has been postponed to the 18th.

The admission fee will be fifty cents and the proceeds of the first nine days will go to the private schools of Peking. After that all receipts will be for the teacher's special allowance.

HAGUE ENVOYS

(Reuter's Pacific Service)

Peking, August 18.—The Government has reappointed Messrs. Hu Wei-teh, Liu Hsin-hsin and Van der Huvel as its representatives on the Permanent Arbitration Court at the Hague.

BIG RADIO ORDER

(Reuter's Service)

Stockholm, Aug. 17.—Sweden has placed a contract with the American Radio Corporation for the supply of $500,000 worth of wireless equipment for a giant station which is being erected on the west coast of Sweden.

Organise Baseball Player's Union In U.S.

Milwaukee, Wis. Aug. 16.—Ray Cannon, attorney, and former baseball player, today announced that he had successfully organised a Baseball Players Union.

The union, he said, was designed to lift the players from their present position as pawns of the baseball club owners to an equal status with the owners.

The Baseball Players Union has made overtures to the American Federation of Labor, he said and Mr. Sam Gompers, president of the Federation, looked upon the new union favorably.

TO ASK FOR LEAVE

(Eastern News Agency)

Peking, August 17.—Rumors are afloat here that Dr. Wang Chung-hui, Acting Premier and concurrently Minister of Education, will apply to the President for a leave of absence on account of an eye trouble.

HOW DO YOU WAKE

these mornings? Fit and fresh, or dull, depressed, ill-tempered? If the latter probably your liver is to blame, in which case try.

GIVE FOREIGNER SIX MONTHS FOR OPIUM RAID

Jean Laglaize Sentenced By The Mixed Court

Six months' imprisonment with hard labor was the sentence passed yesterday by Assessor Blackburn and Magistrate Li of the Mixed Court in the case of Jean Laglaize, one of the three foreigners who, in the guise of police officers, raided a Chinese home on Foochow Road and carried away opium, money and clothing.

The other two foreigners involved, Harold Kay and F. W. Davis, were tried in the British Police Court several days ago and sentenced to three months each, sentence being suspended on account of their youth. Several Chinese participated in the raid.

Mr. Blackburn, in sentencing the accused, remarked that in a similar case that came up before the Mixed Court for armed robbery an accused was given four years. The judgment of the Magistrate in the British Police Court tied their hands in this particular case, and the Mixed Court could not give the accused four years, as the British Court had given the two others who participated in this armed robbery with Laglaize, three months' imprisonment but suspended the sentence.

Mr. L. Kentwell appeared for the accused.

Detective Sergeant Douglas said that the accused at the police station made a long statement, in which he admitted taking part in the robbery with Davis and Kay and ten Chinese. He was to receive part of the proceeds of the opium. He carried with him an Iver Johnson revolver to the house in Foochow Road, and also a Bergnan auto pistol, 38 calibre with two rounds of ammunition. This pistol, he said, he got from a friend named J. A. Gray, who resided at North Szechuen Road, about four months ago. He did not know what happened to the opium that was carried away.

No Progress Made In Debt Parleys

(Reuter's Service)

Washington, August 17.—No progress has been made in the discussions between Treasury officials and M. Parmentier regarding the repayment of the French debt to America.

The latter's invitation was framed in the belief that the envoy would be empowered to state what France was prepared to do to meet her obligations, whereas M. Parmentier was only able to present figures, which were obtainable from other sources, relating to France's financial position. Several weeks of fruitless conferences resulted.

M. Parmentier has been recalled but has promised to return to Washington at the end of Sept.

Japanese Scientist To Speak Tomorrow At The Chinese 'Y'

"Modern Science and Christianity" will be the subject of an address to be given at the Chinese Y.M.C.A. Sunday afternoon, at 3 o'clock by Prof. T. S. Sato, professor of applied chemistry in the Japanese Imperial University, Sendai.

Prof. Sato is one of the distinguished modern scientists of Japan. Among other discoveries made in his laboratories is the making of non-inflammable celluloid. His lectures to the Japanese community delivered during this week at the Japanese Public School have been warmly received, and it was considered important to provide an opportunity for those interested in Shanghai to hear him. The lecture will be given in the Japanese language and interpreted into Mandarin. All who are interested in this important subject who understand either Japanese or Mandarin are invited to attend.

Seasickness Easily Stopped

Eminent Doctor, After Severe, Scientific Tests, Discovers Method.

"Kirby's Sea-Sick Cure"

Revolutionizes Treatment of Motion Nausea.

In order to avoid the terrible feeling of "queasiness" and other after-effects of many so-called sea-sick treatments, an eminent doctor, after many scientific tests, evolved a simple remedy which has proven well-nigh infallible, even in exceptionally sailors. This remedy, "KIRBY'S Sea-Sick Cure," acts immediately, vomiting and nausea cease, headaches are prevented, and no unpleasant after-effects will appear. It not only prevents nausea and motion sickness, but also stops them, when taken after they appeared.

"KIRBY'S Sea-Sick Cure" is free from all noxious drugs, opiates, chloral and bromides. For train-sickness, climber's dizziness, aerial nausea. It has the approval of discriminating physicians.

Sold by all Dispensaries at $1.50 per box of 10 doses.

Sole Props., Collins & Ross, London.

JAIL JAPANESE FOR RETAILING BOGUS WHISKY

Shopkeeper Given 20 Days For Spurious Liquor Output

For selling home made whisky of cheap and particularly deleterious sort as genuine "Johnny Walker" a Japanese shop keeper named J. Hookabe, 1479 Woosung Road, was sentenced to twenty days in jail by Magistrate J. Kobayashi of the Japanese Court yesterday.

Mr. R. F. C. Master, who appeared to prosecute on behalf of Messrs. Caldbeck, Macgregor & Co., agents for Johnny Walker whisky described the spurious brand as follows:

"It is nothing more than neat spirit. He has been filling these bottles with spirit of wine and putting on the capsule and label of Johnny Walker. It is most harmful. A little of it has a very deleterious effect on the health of the drinker and also his brain. The Police records show that a very large percentage of crimes which take place in Shanghai is due to the drinking of this neat spirit. Inspector Reeves of the Shanghai Municipal Police will give to the Court some examples of cases of attempted suicides which have been due to the drinking of this spirit. It has been known for a long time that spirits were being bottled and sold as genuine whisky."

Detective Sergeant Conduit said that he went to the accused's shop on August 15 at 1.30 p.m. on receipt of information that a certain Japanese had been selling spurious "Johnny Walker" whisky. He asked the accused whether he had some cheap whisky and he replied that he had "Johnny Walker" at a dollar a bottle. He was selling these at $20 a dozen, and admitted he had sold some 300 bottles. On his person was found a piece of paper which was a formula for making whisky which was to be given to a Chinese who was leaving the next day.

Mr. J. J. Sheridan, manager of Messrs. Caldbeck, Magregor and Co., testified that the company were agents in Shanghai for Johnny Walker whisky. He had noticed for sometime that his sales of "Johnny Walker" were dropping off. The company was receiving many complaints from clubs, hotels and restaurants regarding the quality of "Johnny Walker" whisky. The strength of the spirit in the spurious bottle of Johnny Walker seized by the Police was 89, which meant there was four percent of water. The spirit of wine would cost about 18 cents and the bottle some ten cents more, making 28 cents per bottle. This the accused sold at $20 per dozen. The bottles could be bought at any Chinese bottle dealer and the labels put on. One of the ways of detecting the genuineness of the stuff was from the cork, which should have the name of "Johnny Walker Whisky" stamped on it. The bottles that the accused was found to possess did not have this mark on the cork.

The accused said the whisky seized by the Police were samples. The Chinese complainant must have come to his shop and taken the samples away without his knowledge. He said he had been drunk for the last three nights and had no recollection of what happened in his shop.

GUARANTEED SCRUBBABLE
W.H.C.
SUPER-DURABLE FLAT PAINT
FLAT WALL FINISH

A perfect Paint of smooth surface for Interior Wall Coating

The surface obtainable with this paint is smooth and flat, i.e., it is not a grainy, dead, lifeless finish, but of a velvety texture. It dries in a reasonably quick time, so that work can be carried out effectively, yet has the property of remaining open long enough to enable the worker to cover a large surface of wall without making laps or edges.

Excellent results with Super Durable Flat Finish are easily obtained, irrespective of the skill of the user, and an elaborate preparation of the surface is usually quite unnecessary.

Super Durable Flat Finish has been tried on non-absorbent surfaces of all kinds and where distemper and oil paint have proved prone to shell or flake off, it has always adhered. It gives a lasting finish of surprising beauty.

1 Imperial Gallon covers about 130 square yards one coat.

"THE SECRET OF SUCCESS"

Many people are looking for it in vain. In the Aerated Water business, it is easy to find, and may be expressed in one word "QUALITY." If the quality is not right, all your other efforts are wasted. For that reason we buy everything used in the preparation of our Aerated Waters of the best quality only, and we invite an inspection of our books to prove it.

Another point with us, of equal importance, is that everything in connection with the preparation of our Aerated Waters is

"ABOVE BOARD"

We do not want to shut ourselves in within a high wall while working, and we have no secrets. If you care to visit our factory at any time, we shall be pleased to show and explain everything to you. It will surprise you to see the infinite care taken to ensure the purity of our Waters.

Support the officers of the Health Dept. by seeing for yourself as well.

Meiji Loses To Fort Mills By 5-3 Score; Mumford Is Best In Pitchers' Battle

Both Catchers Try To Throw Game Away, But Stickers Decide The Issue

Meiji University broke into local baseball yesterday afternoon with a finely organised school team, a speedball pitcher who kept a beautiful assortment of hooks under cover until the final inning when the game was well lost, and a defeat, administered by the solid hitting and well organised champion Army team of the Philippine Islands, Fort Mills. The final score was 5-3.

The game was one of the oddest ever played here. Ft. Mills earned the win, fair enough, on a 3 to 1 basis, yet a gambler might have bet either way at any stage at even odds. The Jap catcher presented the thing to the soldiers in the third when a careless throw-back to the pitcher followed by a lot of chowling around of the real Spalding ball let two runs across. And then by a baseball coincidence the Army catcher pulled the same thing after a triple in the sixth allowing the Japs' first run.

Mumford worked hard and was forced to keep at it throughout the eight and a half innings. He had the edge on the Japanese hurler in that he held down the hitting more on his own first class pitching stuff; he fielded like a whole infield, which with much flashy and steady support went far toward the ultimate result; his team-mates' errors were not as costly as those of the Japanese players.

Unieda must be charged with the first two runs counted by the Army. He flipped the ball back to Watanabe while Massie was trying to strike out in the third and he was off his range a yard or so. The Meiji pitcher missed the throw, and the ball went through second to center while Droski and Mumford came in before it was retrieved. The army earned a run before the Japanese got into the scoring when in the fifth Mumford singled through third, and Browski drove one into the crowd of poachers in right field, which the ground rules limited to a triple.

Then in the sixth came the Fort Mills' catcher's bad throw-back to Mumford, when Nybegawa was on third after his triple to left. It gave the Japanese their first run. They followed with two more in the next frame on a triple, a sacrifice and some up-in-the-air baseball by the Army men. The score was tied at this point. Fort Mills came through in the seventh with some sharp baseball. Cummings singled through short. Parsuch sacrificed him along to second. Droski tripled to right and came in on a passed ball by Uneida.

The score follows:

Ft. MILLS	AB	R	H	PO	A	E
Browski, c	2	0	2	4	0	1
Massie, 3b	4	0	0	0	2	1
McGinnis, ss	4	0	0	0	2	0
Lowe, rf	4	0	0	1	0	0
Aldinger, 1b	4	0	1	10	0	0
Cummings, lf	3	1	1	5	1	0
Parsuch, cf	2	0	0	2	0	0
Droski, 2b	3	2	2	3	3	0
Mumford, p	3	2	1	2	3	0
Totals	29	5	7	27	11	2

MEIJI	AB	R	H	PO	A	E
Unieda, c	4	0	0	5	3	2
Inaba, 3b	4	0	0	1	0	0
Kihara, 1b	4	1	2	10	0	0
Watanabe, p	4	0	1	0	3	0
Daimon, lf	3	1	0	0	0	0
Tateya, cf	3	0	1	2	0	0
Nybegawa, rf	3	1	1	2	0	0
Hayashi, 2b	3	0	1	1	3	0
Tanizawa, ss	3	0	0	3	1	0
Totals	31	3	6	24	10	2

By Innings—

Ft. Mills,										
Runs,	0	0	2	0	1	0	2	0	x	—5
Hits,	1	0	1	0	2	1	2	0	x	—7
Meiji,										
Runs,	0	0	0	0	0	1	2	0	0	—3
Hits,	0	0	0	1	0	2	2	0	1	—6

Summary: Earned runs—Ft. Mills 3, Meiji 1. First base on errors—None. Left on base—Ft. Mills, 3, Meiji 1. Three base hits—Kihara, Browski, Droski, Nybegawa. Struck out—by Watanabe 8, by Mumford, 4. Base on balls—off Watanabe 1. Stolen base—Tateya. Sacrifice hits—Browski, Parsuch. Passed ball—Unieda. Double plays—Cummings to Droski, Mumford unassisted. Umpires—Logan and Doyle.

DAVIS CUP

(Reuter's Service)

Philadelphia, August 17.—Mr. Gerald Patterson (Australasia) defeated Count de Gomar (Spain), 6-3, 8-6, 6-4.

Senor Alonso (Spain) beat Mr. O'Hara Wood (Australasia), 2-6, 3-6, 6-2, 8-6, 6-1. Both fought desperately. Alonso turned the tide by his great agility and the force of his drives.

Shanghai Plays Ft. Mills Again This Afternoon

Shanghai meets the Fort Mills baseball nine this afternoon in the fifth of their series, commencing at 3:30 o'clock. The visiting nine has won three games from the locals, counting on the first three of the series. With two more games to play Gallop's gang has a good chance to tie the six game series.

SAYS 'BUGS' Baer:

GINK ACCEPTED THE NOMINATION

Did What He Thought Was Right, Which Is Why He Was Always Wrong

BY 'BUGS' BAER

Dear Lirious—

It has been said that Gink Fowler favored Roughtown after dark. In the second opening game with West Horror he saw The Glutt swing three times at the first ball pitched.

Didn't Gink look in the book for the answer and decide that the knock-kneed Glutt was out because his knees interfered with each other?

Gink called what he saw. He called three spooks on Conan Doyle. Didn't he receive donations from the Amateur Mushroom Pickers' Convalescing Station?

It's very plain that with Gink Fowler 'round no square deal could be expected.

Yours until business comes back,
HARRY LUCAS,
Whitestone, N. Y.

We're delighted to hear from Mr. Lucas, of Whitestone. That town was in the Boots League for about one meal. The Board of Directors met in the Mayor's cellar and voted Whitestone loose from the works.

We allow nobody to insinuate that Gink was not strictly on the up-and-up. He was a fine-looking fellow after he got his set of night-and-day teeth from the village dental blacksmith.

It was in the sixteenth inning of a triple-header between Roughtown and Gimlet, Gink got the radio from his corridor admiral that gamblers were going to buy up the Summer supply of decisions.

There were four on base at the time, including three strangers out for a bus ride. They thanked Gink for the sponge cake and the fountain pen. The boat sailed Friday, so Gink called the game because the center field wall stopped the catcher's throws to second base.

A parade of bootleggers marched across the diamond, taking a short slice to the town fountain which happened to be a still presented to Roughtown by the Flappers' Intemperance Union.

The Roughtown team owners had refused to kick forth to the Alderman's thirst fund. So, in revenge, the Alderman had chopped a street through the baseball park. While games were going on, heavy motor traffic rattled down this avenue, which went through the diamond from first to second base and around to the plate.

There was a traffic sheriff stationed in the pitcher's box. Sometimes he would call a balk on the umpire for jay walking. Often he would lend an outfielder a taxicab so he could organise a posse to start after a triple or homer.

It was these little intimate touches of co-operation that made Roughtown so municipal. When Roughtown ladies hung out the family wash on the Monday line, they used Yale locks instead of clothespins.

Governor Will Stop Greb-Brennan Fight

Indianapolis, Aug. 16.—Governor McCray has instructed the Sheriff of Laporte county to stop the Harry Greb-Bill Brennan fight on Labor Day.

The match will go to the best three of five sets. Tickets for the benefit may be obtained at $1 each from the secretary, Mr. C. B. Field, or from any of the committeemen. The match commences at 5 o'clock.

Cricket

PARSEE C. C. vs. S. C. C.

This match will be played today on the Parsees' ground, beginning at 2:30 p.m. The following will represent the Parsee C. C.:

C. H. Bhoora, M. D. Daji, M. J. Divecha (Capt.), J. R. Deboo, K. D. Karanjia, C. C. Mavelwalla, J. D. Noria, Alec Petigura, R. H. Ragi, J. H. Shroff, S. F. Shroff. Reserves: V. Viccajee, R. Viccajee.

Cricket Club Tennis Men Take Good Lead In First Day Of Ass'n League Play

Win Every Set In Second Div'n; Lose But Two In First; Recs Next Best

LEAGUE STANDINGS

First Division

	Won	Lost	Pts.
Cricket Club	13	2	13
Portuguese	11	4	11
Recs	10	5	10
Japanese	5	10	5
French Club	4	11	4
Columbia C. C.	2	13	2

Second Division

	Won	Lost	Pts.
Cricket Club	15	0	15
Recs	13	2	13
French Club	8	7	8
Portuguese	7	8	7
Japanese	2	13	2
Columbia C. C.	2	13	2

Cricket Club tennis players took a good lead in first and second division standings in the Shanghai Lawn Tennis Association League yesterday afternoon. The second division couples took every set of their match against the C. C. C. players, and the first division men counted 13 sets against two for the opposition.

The Recs came off next best with a good second in the younger division on 13 sets won to two lost to the Japanese, and a third position in the first division on 10 sets won to five lost against the Japanese best. The Portuguese, holders of the league trophy won to second place in the first division by 11 sets to 4 but only made fourth place in the second division at 7 sets to 8 against the Cercle Sportif players.

Each club played five pairs in either division. Points were scored under the new ruling of the Association which gives one point to each set won, the total of won sets at the end of the season to decide the title.

Yesterday's scores follow:

RECS VS. JAPS

First Division

Ollerdessen and Wade lost to Tanaka and Okada 6-8, 6-1, 2-6.

W. T. Manley and Hawes lost to Okazaki and Oka 9-7, 1-6, 2-6.

S. N. Manley and T. W. R. Wilson beat Ojima and Masutomi 6-4, 6-4, 8-4.

Quayle and A. V. White beat Furutani and Takizawa 6-4, 5-5, 4-6.

Main and S. Sofoulis beat Ruma and Iwaki 7-5, 6-4, 6-2.

Second Division

B. H. Smith and Quincey beat

Peking American School Start Fine New Building

(Chung Mei Service)

Peking, August 10.—Without formal ceremony but with the dogged purpose of carrying through their hopes, the Board of Managers of the Peking American School have broken ground for the new building on Kan Kien Hutung. The plans drawn up by Mr. C. W. Anner have been approved by the Board and the building committee, consisting of Mr. F. J. Deane, Chairman, Mr. F. C. Fette and Mr. E. C. Richardson, announce that the contracts for the building and the installation have been let. The actual construction work is being rushed with the idea of having the school building ready for the second semester of this year.

The building will be three storied and of foreign design. The basement will house the domestic science department with a pantry adjoining, manual training section, heating equipment and storerooms. The first floor is made up of an assembly room, which will seat some two hundred people, in connection with which will be a serving room connected with the pantry in the basement by a dumb waiter so that tea and refreshment can be served in the assembly hall. The library, three class rooms and the washrooms will also be on that floor. The top floor will contain four large classrooms, three recitation rooms, the principal's office and washrooms.

A COMMUNITY CENTER

The land for this building was purchased from the London Missionary Society and contains more than eight "mu." It is hoped to make this school a community center where the various American activities in Peking, such as the Mothers' Club, The American Association, The American College Club, and similar organisations can meet. It is also planned to provide luncheons for children coming from a long distance. This will be run in connection with the domestic science department.

The Board of Directors of the American School consists of Mr. H. J. Howard, Chairman; Mr. D. W. Edwards, Vice-Chairman; Mrs. T. D. Macmillan, Secretary; Mr. F. M. Peterson, Treasurer; Dr. A. H. Woods, Chairman, Educational Committee; Mr. F. J. Deane, Chairman, Business Committee and Messrs. C. W. Anner, Julean Arnold, Mrs. J. E. Backer, F. S. Chien, F. C. Fette, Mrs. G. D. Lowry, Mrs. R. C. Mills, Mrs. W. R. Peck, Willys R. Peck, W. B. Pettus, E. G. Richardson, Mrs. A. B. Ruddock, Mrs. J. B. Tayler and Mrs. A. S. Taylor.

Dr. H. J. Howard, Chairman of the Board of Directors, commented on the fact that the name "Peking American School" did not indicate a desire on the part of the founders to emphasise national distinctions, or to exclude from the school pupils of any other nationality. The name indicates the type of education that was asked for the majority of its patrons. The school welcomes as patrons and pupils people of all nationalities. In order to preserve the English language as the medium of instruction, however, no pupils will be received who are not ready English speakers; and under no circumstances will new pupils whose home language is other than English be allowed to enter if the number of such pupils would thereby be made to exceed 25 percent of the total enrollment of each class.

ASK AID OF PARENTS

It was also pointed out that the aim of the school was to counteract as much as possible the disadvantages that life in the Orient brings to children. Constant relationship with a class of Orientals who submit to autocratic treatment begets a false feeling of superiority in the child. The stimulus of healthful competition becomes less effective and the danger of the children becoming selfcentered and petulant is great. For this reason the parents are cautioned to be very careful, for these children when they are thrown in contact with boys and girls of their own age raised in the West, they are likely to be at a disadvantage. To this end the Board of Directors ask the aid of parents. The curriculum has been carefully balanced and is not too heavy for any pupil who is in good health. Most normal boys and girls need stimulation rather than repression in preparing class work and in regularity and continuity of attendance.

Dr. Howard also said that it was "the aim of the school to follow as closely as possible the best public school practice in the United States, and to maintain the same high standard of scholarship. This enables our pupils to enter with but little or no loss the public school at home, and to use toward college entrance the work done in our high school classes."

KAO SLIPS

(China Press Correspondence)

Peking, August 16.—An amusing story is going the rounds of the capital regarding the Minister of Communications, Kao En-hung, erstwhile Commissioner of Supplies at Shanghai. According to the tale Minister Kao was guest of honor the other evening at a dinner given by Mr. Wang Peh-tang, former Minister of Foreign Affairs. The rail chief was last to arrive and was ushered with much ceremony to the seat of honor. The late-comer immediately launched into a relation of what he had accomplished since taking over the ministry and concluded with the remark: "In my attempt to reduce the expenses of the Ministry I have spared no one. Even such persons as Tien Wen-li (Minister of Interior) and Hsu Shih-chiang (brother of the ex-president) got the sack."

Whereupon the host said:

"Ting An (familiar name for Minister Kao) now that you are a Minister you should become acquainted with all the celebrities of the capital," and, pointing to an elderly guest, continued, "This is Minister Tien Wen-li, please meet him.

Kao accepted the smiling greeting of the Peiyang leader in considerable confusion and shortly thereafter excused himself from the company.

E. Leitao and P. Costa beat Columbine and Hutchinson 10-8, 6-3, 6-4.

Second Division

The French Club won eight sets against seven for the Portuguese in the second division play. The P. S. A. played younger men, and their inexperience told against them.

Allies Will Reply To German Note

(Reuter's Service)

Paris, August 17.—The Reparations Commission has not yet formally met to decide the terms of the reply to the German request for a moratorium.

It is understood, however, that there have been private conversations among some of the delegates.

(Reuter's Service)

Paris, August 7.—The delegates of the Reparations Commission are informally conferring with a view to reaching an agreement acceptable to all the Allies.

A report of the proceedings is not expected.

An official meeting is probable tomorrow, pending the result of which the French Government will stay its hand.

(China Press Service)

Berlin, Aug. 16.—Chancellor Wirth today admitted that "Germany was unable to carry out its program to fulfillment."

"We must guard the nation's supply of bread first," he said. "If any gold remains after we buy grain we'll use it for reparations."

Office Buildings for Rent

We beg to offer for rent the following office buildings adjoining ours: Nos. 202 and 203 Shantung Road, corner Kiukiang Road, and Nos. 434 and 435 Kiukiang Road, corner Shantung Road (behind the Cathedral). Each building to be let as a whole containing three storeys approximately 3,000 sq. ft. of show room and office space besides a flat roof. Above buildings are to be let under very favorable terms for a short or long period as may be desired. Apply

SHANGHAI, SATURDAY, AUGUST 19, 1922

Business and Official Notices

Special Notice to Mariners
NO. 636.

China—East Coast.

Shanghai District.

Yangtze River—South Channel Entrance.

Kiutoan Light-vessel to be temporarily withdrawn from her station and replaced by a relief Light-vessel.

NOTICE is hereby given that on or about the 15th September 1922 the Kiutoan Light-vessel, moored in the South Channel Entrance to the Yangtze River, will be temporarily withdrawn from her station and replaced by the relief Light-vessel Tienching.

The relief Light-vessel Tienching is 83 feet in length and painted red.

The light is exhibited from a lantern carried by an iron trestle structure, and is dioptric, of the sixth order, showing an occulting white light every 3 seconds, thus:—

Light ..... 0.3 second
Eclipse ..... 2.7 second

The centre of the light is elevated 35 feet above the water, and should be visible in clear weather at a distance of 10 nautical miles. A black drum encircles the trestle below the lantern as a daymark. During foggy or thick weather a gong will be beaten at short intervals.

If the Light-vessel is driven from her station, the usual light will not be shown, but a fixed red light will be exhibited from each end of the vessel during the night and a red flag hoisted by day.

Tenders Invited for Purchasing the Valuable Properties of the China Merchants' S. N. Co.

In accordance with the resolution passed by the Board of Directors of the above company at their last meeting, tenders are invited for purchasing the following properties:

1. Three buildings in Bubbling Well Road, with land, total area 12m 5f 91, B.C. Lots 2136-7, Municipal Nos. 121, 121A, 122. The buildings Nos. 121 and 121A now occupied, lease expires on the 1st day of the 9th moon of the 12th year of the Chinese Republic.

2. Four godowns in Broadway, total area 3m 7f 61, B.C. Lot 8543, Municipal Nos. B29, A29, 30, C29. All occupied. Godowns Nos. A29, B29 leased to the Nanyang Cigarette Co. and will be vacated on April 1, 1923. Godown No. 50 to Babani Co. and No. C29 to Dieden Co. Both leases expire April 30, 1924.

The minimum offer for the first lot Tls. 140,000 and that for the second Tls. 120,000. All sealed tenders must be sent in before the 14th prox. and will be opened in the presence of Directors. Only the highest bidding will be accepted and, when accepted, the bidder will be notified of the same by writing. On the next day he will be required to pay 10 percent his tender price, leaving the balance to be paid in a week's time. If the said balance is not forthcoming when due, he shall forfeit not only the 10 percent bargain money but the privilege of making the purchases, which has then to go to his approximate bidder. All tenders must be made for the two properties together. No separate tenders will be accepted.

Diplomats Deny Quizzing Peking On Internal Issues

(Chung Mei Service)

Peking, August 15.—The foreign legations, including the office of the Dean of the Diplomatic Corps denied all knowledge of a note having been sent by the Dean to the Chinese Foreign Office asking three specific questions as to the present position of the Central Government.

The story of this alleged note was published in most of the Chinese papers yesterday and the questions really were so pertinent that an immediate endeavor was made to prove or disprove the statement. His Excellency M. De Freitas, Portuguese Minister and Dean of the Diplomatic Corps returned to Petsiho on Friday so that it was not possible to see him personally this morning.

According to the Chinese papers the three questions demanded of the Waichiaopu were 1. What the Chinese Government is going to do with Chang Tso-lin's seizure of the salt revenues of the Three Eastern Provinces which are pledged for the service of the Reorganisation loan: 2. Whether it has given up its right of negotiating with the foreign Powers in Manchuria; and, 3. Whether it is capable of giving protection to foreign property and life in its midst, in view of the many mutinies that have broken out recently in many parts of the country.

This statement being untrue, is without doubt an attempt on the part of the enemies of the present administration to embarrass the Government at this extremely critical stage of its dying.

Disarmament Pact "Ethically Futile"

(Reuter's Service)

Wellington, N. Z., Aug. 17.—Reporting to Parliament on the Washington Conference, Sir John Salmond, who represented New Zealand at the Conference, said that the Washington Agreements did not limit the weapons with which States might fight but merely limited the weapons which might be prepared in peace-time.

Still less might the Agreements be properly regarded as a step towards total naval disarmament. No such impracticable idealism inspired the conference.

The Agreements had no ethical significance.

The right and duty of every State to provide for its national safety remained undisputed and imperative.

Impressive Rites For Northcliffe

(Reuter's Service)

London, August 17. — The funeral service for Lord Northcliffe at Westminster Abbey today drew a notable congregation drawn from every branch of British public life.

Brigadier-General Trotter represented the Prince of Wales while others represented were the Prime Minister, Mr. Winston Churchill, the Embassies and Legations and the Dominions.

A strong contingent of leading figures connected with British and foreign newspaper activities was also present.

After an impressive service the coffin was borne to St. Marylebone Cemetery, Finchley, for interment.

Afghan Government Not To Interfere

(Reuter's Service)

London, August 17.—A message from Simla states that the new Afghan Foreign Minister has made a statement to the effect that the Afghan Government regards the disturbances in Bokhara as internal disorders in which neither the Russian nor the Afghan Governments should interfere.

It recalls the clause in the Russo-Afghan Treaty agreeing to the actual independence of Bokhara and Khiva and expresses confidence that Russo-Afghan relations will be directed towards the welfare and freedom of Bokhara and Khiva.

Swedish Scientist To Explore Tibet

(Reuter's Service)

Stockholm, Aug. 17.—Mr. Sven Hedin is preparing his sixth expedition to Tibet next year. He will be accompanied by a number of Swedish scientists. He proposes entering via China. The expedition will last four years.

Launch Services

Wednesday, August 23, 1922

The tender conveying passengers and baggage on Board the D. K. K. s.s. Saikio Maru, for Tsingtao and Dairen will leave the Customs Jetty at 9 p.m.

BELATED REPORTS AT TO TOTAL OF TYPHOON DEATHS

(China Press Correspondence)

Hongkong, August 16.—Advices from missionaries in the interior declare that the recent typhoon killed approximately 20,000 in the vicinity of Chiachiu.

It is impossible to make an accurate estimate of the dead as yet, they report.

(China Press Correspondence)

Kaying, Aug. 6.—The typhoon which swept this district on August 2 was the worst that this part of China has experienced. Buildings that have stood the tests of time for hundreds of years were badly damaged. Several people were killed by falling buildings and some were killed by trees that were uprooted.

The fact that the storm occurred just after the rice crop had been gathered rather than when the crop was still in has unquestionably been responsible for many lives being saved.

The greatest loss of life here occurred from boats being overturned on the river, and reports from Chouchoufu say that practically all the native craft were lost.

The residents in the mountain resort here experienced a very trying time. Several places were partly blown down and a number of roofs were blown off.

(China Press Correspondence)

Swatow, Aug. 8.—Because of the fact that your correspondent was en route from Shanghai to Swatow he knew nothing of the typhoon that almost wiped this city from the map until passing Masu island at the mouth of the bay we saw wrecked houses and other wreckage that showed us the storm had been extremely severe in Swatow.

Then as we proceeded in the harbor we saw four steamers on the rocks. The harbor was strewn with wreckage and all along the shore we could see overturned junks. Every pontoon in the harbor had been carried away.

The story of the terrible storm has been told by this time but a few facts and observations deserve mention. The foreign community fortunately escaped without loss of life, which is a miracle because there is not one foreign dwelling that was not damaged by the storm.

On the Kakchier side, where most of the foreign residences are, there was enormous damage done. Houses which stood the horrible earthquake of 1918 gave way before this storm. Practically all the walls and fences have been swept away and many roofs have been entirely wrecked. The beautiful American Baptist compound is a wreck. Every house was more or less damaged.

The school buildings were torn up, the strongest and newest buildings suffering the same as the others. There is hardly a tree still standing on the compound. The force of the wind was so great that it broke down trees a foot in diameter. Timber was blown for hundreds of yards. Damage to the Baptist compound alone totals $50,000.

On the Swatow side where the English Presbyterian mission is located the damage is even greater in proportion, as they also had damage from the tidal wave. Every house that I visited was badly damaged and many were completely wrecked.

When the tidal wave came it swept through the city from four to eight feet deep destroying everything in its path. Before the wave came the roofs had been blown off and many of the inhabitants had sought refuge in the lower parts of the houses. They were drowned like rats. The exact number of dead will perhaps never be known. They are still finding bodies under the debris. Surely between 50,000 and 60,000 were killed or drowned.

1,409 Foreigners In Employ Of Customs

(Chung Mei Service)

Peking, August 15.—The Foreign Office has announced the number of foreign employees in the Chinese Maritime Customs to be as follows: British 561; Germans 228; Japanese 236; Russians 82; Americans 145; French 88; Italians 69, making a grand total of 1,409.

WEATHER

The typhoon after passing between Naha and the Meacu Sima groups will cross the Eastern sea and threatens to pass near the Saddes. Rough weather and cyclonic winds between our coasts, Kuisiu and the Loochos. The weather will probably become overcast.

Gas As A Humane Weapon

(By Rear Admiral William S. Sims, in the New York Times)

I AM glad to learn that the Times is informed as to the effect and the after effect of the use of gas in warfare. The editorial, "Against Poison Gas," in your issue of June 15, did not so indicate. Certainly the general public is not adequately informed on this subject, and it would therefore seem that the official information published by our Government should be given wide circulation. If the statement that gas greatly increases casualties and necessarily causes unnecessary suffering is in error, it should be corrected, no matter who is responsible for the error.

The public should not be led to suppose that "if asphyxiating and poisonous gases should be used in future wars non-combatants of both sexes and of all ages would perish by thousands in cities classed as fortified, and probably in all communities that could be reached by airplanes."

This assumes a barbarity of which there is no precedent for predicting the nature of future gas warfare. Even the Germans refrained from using gas in attacking the great munition plants and the concentrated railroad distributing center of London, and they did not attack "all communities that could be reached by airplanes," as they easily could have done. There is no more reason for assuming that gas will be used in an inhuman manner than for assuming that bayonets, rifles, shells and so forth will be so used.

Information is also particularly needed at this time to relieve the mental suffering and the induced physical suffering of those of our gassed veterans who are profoundly depressed by the apprehension of tuberculosis that has been caused by the false information that gas attack predisposed its victims to this and other pulmonary diseases. This has been entirely disproven, and these unfortunate men should be so informed as specially and as completely as possible. In this connection see an editorial in The Providence Journal of July 6 on "War Gases and Tuberculosis"—a review of an article by an officer of the Medical Corps of the army—which concludes: "In fact, it should serve to put the bogy that gas and tuberculosis are related in any way."

The following figures showing the proportion between the number of casualties and of deaths caused by gas and other weapons may be of interest:

Tactical requirements have reduced the number of gases that can be employed economically and have largely restricted the uses of gas to the inflicting of mild and temporary casualties. That this is actually the case is strikingly confirmed by the casualty statistics of our army.

Of a total of casualties, 27.3 percent were caused by gas. Of the total casualties, 23.4 percent died. Of the total casualties, .429 percent, or less than ½ of 1 percent, died from the effects of gas! The total deaths in battle were 48,059. The total deaths in battle caused by gas are estimated at 200. The total number of all deaths from gas was 1,400.

The really significant figures are these showing that while gas caused 27.3 percent of all casualties, of these only 1.87 percent died! That is less than one-twelfth the percentage that died from the effects of other wounds. Gas, moreover, does not mutilate or disfigure, and that it plays any part in causing tuberculosis it is difficult if not impossible to prove. Certainly there were enough other causes without it.

But it is not only that gas is, as now employed, by far the most humane of all the weapons yet devised, but if we continue our research, as we are now doing, there are great possibilities that the humane characteristics which it has developed may be indefinitely increased. If the types causing only temporary disability, such as the tear-gases and the sneezing gases, were developed to a point where they would become the most important tactically, many more serious casualties by shot and shell could be prevented. This is precisely what gas does now. As a matter of fact, it was the use of Yperite that enabled the troops of the 89th Division to capture the Bois du Bourgogne in the Argonne without a single casualty.

French Plan At German Expense

Paris, June 26.—A plan for the employment of German labor and German material in the building of the Channel tunnel to Engand, in the construction of new railroads in France, in the spanning of the Rivers Rhine, Dorgogne, Drac and half a dozen others, so as to create an immense electric service over all Central France, and in the reconstruction of the ports of France, is being studied by the Poincare Cabinet—the whole work to be accounted against Germany's reparations bill.

As outlined by M. Le Trocquer, the Minister of Public Works, the proposal is the biggest thing ever planned for execution in one sovereign country by the people of another country, and when it is general known there is likely to be a storm of protest from many quarters. Nevertheless, the Government appears to be counting on very strong backing; otherwise it would never have permitted an account of the proposal to be published in the form in which it has become known.

The first hint of it was given in a speech by M. Le Trocquer at Eu yesterday, when he announced that, before Germany could be allowed to spend the enormous sums she was planning to spend on her own developments, she must, "according to the strict obligations of the treaty of peace, construct on our territory the means of production which she is developing on her own."

Any such wide extension of the principle of restitution in material has not hitherto been imagined by the general public, and today M. Le Trocquer was interviewed as to his intentions. To the interviewer he replied that he had elaborated a plan, in full agreement with Premier Poincare, under which Germany would be asked to pay her debt by participating in the construction in France of many great public works which were in the national interest.

M. Le Trocquer bases the right of France to call on Germany to repay in this way on Paragraph 19 of the Annex to the Treaty of Versailles, which provides for the employment of German labor and material in the development of the industrial and economic life of any of the allied or associated nations. It is the Minister's argument that the most useful works to be undertaken would be those on which a loan could be raised which would be devoted to reconstruction in the devastated regions. Thus indirectly, but with the greatest economy and the least friction, he proceeds, Germany's payment would go where it was most needed, and at the same time the whole of France would benefit.

One objection to using German labor for direct reconstruction in the devastated districts was that the workmen would be scattered about, and to that the local population objected. Under M. Le Trocquer's scheme German workmen engaged on big public works would be housed together in big gangs.

The Minister has already mapped out what works could best be undertaken and their value. The one to which he attaches the most importance is the construction of big power stations on the rivers of France and the distribution of electric current throughout the whole central plateau. His estimate of the value of the work to be done runs to about 11,000,000,000 francs, giving a big immediate return.

For the construction of new railroads and the Channel tunnel to which the consent of England must be sought—his estimate is 1,800,000,000. The reconstruction of the ports for which plans already have been made would cost 3,000,000,000 and the total cost of the works to be accomplished would be 18,419,000,000 francs, of which a big share would be furnished by Germany in labor and material. The Reparations Commission has been informed of the plan, and a small committee of the Cabinet is now examining the details.

$1,000,000 Gold Pledged To Harness The Jordan

Rutenberg Engineering Project Aimed To Furnish Power For Palestine; Jews Contributing

New York, June 24.—Nearly $1,000,000 has already been guaranteed by Jews in this country for use in harnessing the waters of the Jordan River to supply electric power for light, railways, irrigation, industrial and other purposes in Palestine, according to a statement made public today by the Palestine Development Council, 31 Union Square.

The campaign for funds for this purpose is also being carried on among Jews in England, France and other parts of Europe. Five million dollars is required for the completion of the first part of the Rutenberg project, as it is called, under which the swift descent of the Jordan from the Hermon Mountains to the Dead Sea is to be utilised to furnish power, as a basis of the development of Palestine.

The cost of coal at Palestine—about $25 a ton—is one of the chief reasons for the backwardness of the country in industry and transportation. A complete modernisation of the Holy Land is promised by the projectors of the plan. The concessions for the project have been granted by the British Government, which holds the Palestine mandate, to Pinhas Rutenberg, who is in this city at present, acting in co-operation with many prominent Jews.

CAMPAIGN FOR FUNDS

The campaign to obtain the investment of a large sum in the project was launched among Jews in this country last week at the same time that the whole matter was the subject for debate in the British House of Lords, where the question was raised as to the saftey of the rights of the Arab population and as to the wisdom of granting rights of such extensive character to Rutenberg. Lord Balfour said that the whole plan had been investigated in the most critical spirit by the experts of the Colonial Office and that they were unanimous in saying that the scheme and character of the undertaking could not be bettered.

The larger subscriptions for the purchase of the trust certificates in the project, as made public by the council, are the following:

Palestine Co-operative Co.	$125,000
Sol Rosenbloom	50,000
U. S. Supreme Court Justice Louis D. Brandeis	25,000
Louis Horowitz	25,000
Julius Simon	10,000
Harry Fischel	5,000
Solomon Ulmer	5,000
Mrs. J. Guggenheimer ...	5,000
Dr. Harry Friedenwald ..	5,000
Sigmund Eisner	5,000
Mr. and Mrs. N. R. Lindalm	4,000
George I. Fox	2,000
Louis S. Posner	1,000
Jacob Ginsburg	1,000
Samuel J. Rosensohn	1,000
Louis H. Miller	1,000

Committees handing the trust certificates in different cities reported pledges amounting to $570,000. Judge Julian M. Mack is the President of the Council.

HARNESSING THE JORDAN

The engineering problems involved in harnessing the water power of the Jordan are unique because of the fact that the river, when it falls into the Dead Sea, is 1,290 feet below sea level. The first stage of the project, however, involves the utilisation of the upper waters of the Jordan. The springs of the Jordan start in the watershed of the Hermon range in Palestine. These mountains rise to a height of 4,000 feet above sea level, so that the total fall of the Jordan is more than 5,200 feet. The river is 140 miles long. The technical plan is described by the council as follows:

"Mr. Rutenberg's plan in its final development contemplates the utilisation of the Jordan from its headwaters to the Dead Sea and the use of the waters of the Yarmuk and the harnessing of its falls to the east. The scheme is capable, however, of gradual accomplishment in successive stages.

"At present it is planned to carry out only the first part of the general scheme, which involves the utilisation of the falls of the River Jordan between Lake Tiberias and Jisr-el-Mujamyeh. The damming of the Jordan, where it leaves the Lake of Tiberias, will make of that lake a great natural storage reservoir; better, in fact, than human engineering could provide. By means of this reservoir water of the Jordan (and later also of the Yarmuk) may be conserved in the wet season for use in the dry season and its flow so regulated during the day as to let the water out of the reservoir to the turbines at such hours and in such quantities to meet the actual demands for energy.

TRANSMISSION OF POWER

"From the power house or power houses on the Jordan the energy will be conducted by high tension lines of 66,000 volts to the main centers of consumption, where it will be transformed and transmitted by lines and covers of medium tension of 15,000 volts in the country districts and of 6,000 volts in the towns. It is further planned to erect in the main centers of consumption of energy—that is, Jaffa, Haifa and Jerusalem—reserve fuel power houses to supplement the hydraulic stations in the event of any interruptions or shortage for any reason of the Jordan energy."

The whole scheme has been reviewed by engineers of the General Electric Company. Dr. L. C. Loewenstein, consulting engineer of that company, wrote:

"I am very much impressed with Mr. Rutenberg's work and it is, in my judgment and the judgment of my associates, a sound and excellent engineering project. I am also impressed, as my associates are, with the engineering ability and thoroughness of Mr. Rutenberg's work. I consider this project one of the greatest and probably one of the most important in the development of Palestine. The future of the country depends, in a large measure, on the successful utilisation of its proper resources."

Mr. Rutenberg is a Russian engineer. He served for a time at the head of the Police Department in Russia under Kerensky.

Preliminary work on the project is expected to begin in a few weeks, according to the council, which gives this account of the progress expected.

"Employing 3,000 persons for two years in constructing the dam, cutting the canal and building the power house.

"Putting up transmission lines that will provide Jaffa, Jerusalem, Hebron, Tiberias, Safed and Haifa and the Jewish colonies with light and power. Remember there is no electrical street lighting (little gas lighting) all over Palestine, and no light for all domestic purposes. All Palestine still uses oil lamps, and kerosene, imported, is expensive.

"Power is as important as light, for no big industrial effort has been possible in Palestine for lack of local fuel. Power is immediately needed for printing plants, flour mills, railroad workshops, irrigation engines, pumping water for domestic uses, &c.

"Mechanically, Palestine is practically in the position in which all the world was before the steam engine was invented (excluding existing railroads and automobiles). Harnessing the Jordan means for Palestine jumping a century in progress."

"PRICELESS"
is a popular way of describing anything which has proved to be of exceptional value, and may therefore be employed to describe that old and favourite preparation—Beecham's Pills. The ever-increasing army of men and women who have experience of this excellent medicine generally use some such phrase as "priceless" or "Worth a guinea a box" when speaking of Beecham's Pills. This is certainly high praise. But it is well-merited. Beecham's Pills have proved, times out of number, to be a "priceless" preparation in the treatment of digestive ailments. They bring relief; they safeguard the health; they effect remarkable cures. All who suffer in any way from biliousness, sick headache, constipation, impaired appetite, and the resulting loss of energy and want of tone should take

The Week's Market

COTTON

In their weekly report on the Shanghai cotton market, Messrs. A. B. Rosenfeld and Son write as follows:

China Cotton.—Although there has been a rather general tendency to minimise the damage done by the typhoon that was passing through from the mouth of the Yangtsze Valley to Chingkiang and the Chekiang Province when we were writing our last report, the weekly weather report and the want of rain show its seriousness.

There are a great many complaints against insufficient rain along the greater part of the Valley, Shensi, Shansi, Shasi, and Honan.

On the whole, regarding the crop news of the week, unless climatic conditions improve within the next couple of days, we are of the opinion that the outlook leans decidedly towards an impairment of the general prospects rather than towards a general improvement.

The general tendency during the past week cannot be said to have indicated any change where the situation in its essential features is concerned. Nine-tenths of the trading of the week has been done in the swapping of contracts among members of the Cotton Exchange and among outside local professionals. Domestic mills, instead of contributing to the aggregate making of the market, have been conspicious by their absence, and there has been no change in the other general conditions of the market. We, therefore, continue to feel that purchases on easy spot are advisable.

Yarn.—During the past week there has been no change in the fundamental conditions of the yarn market. Fluctuations were within narrow limits and ended with a steady tendency at the close of the week. Some 5,000 to 6,000 bales of local spinnings have been booked for export to Szechuen, Canton, Newchwang, Hankow, Kiangse, Wuhu, Tientsin, Tsingtao and Swatow and over 1,000 bales direct business with the mills has been recorded at very fancy prices. Deliveries have been excellent.

SPUNT REPORT

Messrs. J. Spunt and Company write as follows in their weekly report on the cotton market.

China Cotton:—While there has been very little demand for spot deliveries, a fair volume of business during the past week may be recorded on the new season Cotton with deliveries in November, December this and January next year, done at prices about Tls. 0.50 per picul lower than that transacted during the previous period in that the reports now being received from the interior are all encouraging as to the local crop outturn for the season 1922-3 being fully up to average.

With regard to Mid-Americans and Indians there still prevails a certain steadiness with a tendency towards an upward movement, inasmuch as the carry-over in both the U.S.A. and India is dwindling away almost to nil, coupled with the discouraging roports as to the boll weevil ravages in the former and lack of sufficient rain in the latter. Tone of the market, Easy.

FILET LACE

The lace market has remained unchanged. Business is slow and orders received by exporters are covered from stock at prices ranging from 1.5½ to 1.6 for first quality goods (10 holes up to the inch).

Fairly large quantities are still being shipped to the U.S.A. the bulk of which are 6 and 9 hole as well as Rose and Leaf pattern.

Irish laces are unchanged with practically no demand.

HAIRNETS

The market has showed a better tone than in the previous week. It is evident that there is an improvement in the American markets, which for the last few months have been exceptionally quiet.

The demand is for capnets doubles, prices of which have advanced during the week.

Fringe nets have also been in request (singles) at an advance of 30 cents over last week's price.

The market is steady.

PONGEE SILK

The activity in qualities (ref. Nos. 3 and 5, 30 and 50 yd. pieces) as reported last has continued during the week.

Other qualities have been quiet. Prices are unchanged.

JUTE FABRICS

Mr. J. A. Fredericks writes as follows in his report on the jute fabrics.

During the fortnight under review there was hardly any business in this line. A few bales in Hessians at Tls. 116 changed hands, to satisfy immediate requirements.

HONGKONG SHARES

Messrs. Moxon and Taylor of Hongkong write as follows in their weekly report on the share market dated Hongkong, August 11:

Our market has been quite active during the past week with a good deal more forward business doing.

The Shanghai market is quiet with very little doing.

Rubber remains neglected.

The following are the principal alterations since last week:

Hongkong Banks.—A good many shares have changed hands at $885 cum. div. of $23 and since the payment of this on Tuesday the market has firmed up and business was done at $867½ ex. div. and closes firm with buyers at $865 ex. div.

Unions:—Have been the medium of a little business during the week at $202 and $203.

Hongkong Lands:—Have firmed up and finally came to business at $219.

Humphreys:—Have been in good demand and have firmed up to a buying rate of $13 without attracting sellers.

Cantons:—Are wanted at $445.

Hongkong Fires:—Could be placed at $385.

Douglases:—Are rather quieter at $53.

Hongkong Hotels:—Are in good demand and have firmed up to a buying rate of $21¾ old and $10½ new.

Dairy Farms:—Are also in good demand and close firm with buyers at $22¾ Old and $21¾ New.

Hongkong Wharves:—A considerable business has been done in these at prices varying from $139-140½.

Hongkong Docks:—Have also been in good demand at rising prices and close steady at $167 cash and $172 October.

Hongkong Trams:—Have eased off and have been done as low as $15.30 with sellers asking $15.60 at the close.

China Providents:—Had a rapid rise at the beginning of the week and were done as high as $22.65 but close easier with sellers at $21¾.

Exchange Market

In their weekly report on the exchange market, Messrs. Maitland, Fearon and Brand write as follows:

Exchange:—Silver in London is quoted at 35d. ready being ⅛d. up since this day last week, the forward price at 34⅞d. is unchanged. The market until today has continued to sag, but buying orders from China, doubtless covering local speculative operations seem to have put a stop temporarily to the downward movement.

T.T. on London has remained officially unchanged throughout the week at 3s. 4½d., with business doing well above this quotation.

The market locally has displayed more activity, but as there is practically no demand from importers and as, with the exception of a fair quantity of Franc paper placed towards the end of last week, exports still remain dull, operations have been largely confined to speculators. Gold dealers have been endeavoring during the past few days to reduce their overbought sterling position, but with no cover offering this has not been easy and rates have consequently hardened considerably.

The market closes firm under this speculative influence with sellers of sterling T.T. at 3s. 5⅛d. near and 3s. 5⅜d. forward. Gold Dollars are offering at 77¢. Local stocks of silver continue to increase.

Our stocks of silver are reported as follows:

Sycee and Bar Silver Tls. 39,790,000, an increase of Tls. 2,436,000.

Chinese and Mexican Dollars $34,680,000, an increase of $420,000.

Estimated value Tls. 64,785,000 as against Tls. 44,920,000 held at this time last year.

The quality of a high class champagne depends exclusively on the "crus" or vintages it is made of. For this reason the firm LOUIS ROEDERER has always made it a principle to secure the best vintages regardless of cost.

Hankow Market

The British Chamber of Commerce at Hankow write as follows in their weekly circular dated Hankow, August 9:

FINANCE

Bar silver declined from 35⅛ ready and forward, to 34⅞ on the 9th inst. New York-London cross rate was quoted at 444⅝ on August 2, rose to 444¾ on the 3rd, and declined to 444⅝ on the 5th, rising again to 446¼ on the 8th, and closing at 445¾ at the week end. The official T.T. rate dropped from 3s. 6⅜d. on August 3, to 3s. 5⅜d. on the 9th. There were sellers of T.T. up to 3s. 7d. 4 m-s. credits were placed during the week at 3s. 7d. but very little paper came out. Business during the week was slack and with the Banks closed on the 5th and 7th, was very limited. T.T. on Shanghai fell from 97 to 96.6. Chinese market rates: Shanghai Taels 96.85. Local dollars 70.2. Native interest 6½ percent per annum.

EXPORTS

Local prices continue to rule steady, and being still out of proportion to home values, very little buying has been noted during the week under review. European buyers are reported to have reduced their limits for peas and broad beans, but buyers are still difficult to find at current prices in these, the only commodities in which anything like a reasonable business can be done, owing to the general scarcity of supplies.

IMPORTS

Piece Goods:—No change to report. The market is quiet, and clearances are poor.

Yarn:—Nothing to report.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is particularly a preparation for Infants and Children made agreeable to the taste, acceptable to the stomach and pleasant in its action. It has been in use for over thirty years and has always been one of the most highly esteemed of all cathartic preparations. It has one great advantage over other preparations of its kind in that while it opens the organs readily and completely, it does not have a tendency to produce subsequent constipation so much to be dreaded.

It was only after years of research in the fields of herbs and roots for a combination of purely vegetable matter that would have all the virtues of Castor Oil, without its disagreeable, nauseating properties, especially when used for infants or children, that the formula used in Fletcher's Castoria was found, and which for over 30 years has proven its worth. Try it.

Save the Babies.

Infantry mortality is something frightful. We can hardly realize that of all the children born in ivilised countries, twenty-two per cent., or nearly one quarter die before they reach one year, thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen! We do not hesitate to say that a timely use of Castoria would save many of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestion, sickness, death. To avoid any possibility of giving your child opiates, or narcotics of any kind, keep Fletcher's Castoria in the house, and Save the Babies.

The Children's Comfort—The Mother's Friend

Kao To Settle Hupeh Governorship Fight

(Independent News Service)

Hankow, August 14.—Mr. Kao En-hung, Minister of Communications at Peking, will soon be visiting Hankow as representative of President Li Yuan-hung to settle the civil governorship fight in Hupeh. He will stop at Loyang to consult General Wu Pei-fu as to the advisability of putting in Admiral Tang Hsiang-ming or keeping Tuchun Hsiao Yao-nan on the job.

The latest development in the deadlock is the new proposal of undoing the appointment of Admiral Tang or the presumptuous self-appointment of Tuchun Hsiao, in favor of a scheme to elect a new civil governor by popular vote. The proposal is fathered by certain military factions who have gained through brides or otherwise, several influential organisations in Wuhan which they style as the bulwark of public opinion in Hupeh.

Both Admiral Tang and Tuchun Hsiao remain reticent on the issues now at stake. They seem to be patiently waiting for Peking's arbitration.

Austrian Crown In Further Drop

(Reuter's Service)

Vienna, Aug. 17.—The great disappointment and grave anxiety caused in political and financial circles by the decision of the London Conference to refer the Austrian application for further credits to the League of Nations has reflected another big drop in the value of the crown which is now 80,000 to the pound (£), representing an increase of 20 percent since August 1.

Chang Tells Why He Keeps Salt Revenue

(Chung Mei Service)

Peking, August 15.—Certain of the Chinese papers print a telegram purporting to have been sent by General Chang Tso-lin to a friend in Peking who is asked to convey its contents to the Government. It is alleged to have contained the following defiant message:

"The salt collections have been made by the people of the Three Eastern Provinces. These people have adopted the form of Government proposed by the South-western Provinces, self government by federated Provinces, and such collections should naturally be appropriated by them.

"The recent detention of these revenues has been actuated by this cause and not by the desires of any individuals. The foreign obligations secured by the salt tax will be paid out of these salt collections and the balance will be kept for the use of the Three Eastern Provinces.

"I do not think that the Central Government will consider this as an illegal procedure."

Printers Strike In England Settled

(Reuter's Service)

London, August 17.—The printers' dispute which so long disorganised the provincial newspaper world, has been settled.

An agreement was signed at a conference yesterday, under which the Typographical Association agrees to recommend that the strikers resume immediately with a reduction of three shillings weekly.

They also will take a ballot on the Association's recommendation of acceptance of the gradual total reduction of twelve shillings and sixpence, wages then to be stabilised until December 31, 1923.

The employers' associations agree to recommend the reinstatement of the strikers to their former positions.

Financial And Commercial News

Exchange Fluctuations

Asia Banking Corporation

August, 18, 1922

Spot and Forward Bar Silver were each down ⅛d in London yesterday.

The New York price was unchanged and the London-New York cross rate advanced to 448⅝.

The only changes in our Official quotation here today were a rise in Gold Dollars to 77¼, in the Franc rate to 975 and a drop in the Yen rate to 62¾.

Our market here while a little stronger than yesterday was on the whole steady, particularly in the early part of the morning when business in Sterling was done at 3-5⅝ and Gold Dollars at 78.

However, banks were buyers at these rates and as there was little cover offering today in the way of bills or sales by speculators rates eased off until at the tiffin interval there were no sellers of Sterling better than 3-5 9-16 for all deliveries to December, and of Gold dollars 77-⅝.

There were sellers of Yen at 61⅝ and buyers at 61½, at the same time.

In the afternoon rates steadied up slightly and the market closed steady with sellers of Sterling at 3s. 5⅝d. for September-Forward deliveries and of Gold Dollars at 77⅝. Banks were quoting 3s. 6¼d. for Sterling Bills, 79¼ for Gold Dollar Bills and 1010 for Franc Bills.

The Continent sold a small amount of Silver in London yesterday and China bought.

The market is reported steady as is also the New York market.

New York reported there is very little silver available for near delivery.
